SKILLS

Language : C, C++, Java, Python, HTML, CSS.
Frameworks : PHP-laravel, JDBC, Pandas, Statistics Skills, NLP.
Databases and Server : MySQL, Xampp, Data Warehouse.

WORK EXPERIENCE

Full Stack Developer - Gemini Consulting and Services - May 2022 - Jul 2022 [Link to Demo](#)

Joined as an intern at Gemini Consulting and Services. In my 2 months as an intern, we have built an e-commerce web portal, consisting of user home pages, a product page, and an admin dashboard where the admin can track monthly and yearly sales. I mainly handled the back end and security of the website.

Language and Tools : PHP Laravel, MYSQL, HTML, CSS, JavaScript, Xampp

PROJECTS

Twitter Sentimental Analysis - Python

[Link to Demo](#)

The project is about the prediction of US election results based on Twitter comments. By using Twitter tweets we categorized them into 3 types of sentiment using Python and predicted the results

Sentimental Analysis of YouTubeComments - Python

[Link to Demo](#)

The project is about the Sentimental Analysis of YouTube Comments. Our Model (Vader and Text Blob) analyses the comments whether it is positive, negative, or neutral, and gives feedback on video.

Antique Furniture Sale - Java

[Link to Demo](#)

I developed a web portal for Antique Furniture consisting of an admin page where the admin can add, delete, and update the products. where users can view and buy the products.
